WORK EXPERIENCE

Abbott Laboratories

Sylmar, CA

Product Support Engineer II, Aug 2025 – Present

Associate Systems Engineer I, March 2024 – Aug 2025

- Provide Tier II support for implantable devices, transmitters, and web/mobile applications; investigating issues and analyzing logs to identify root causes and ensure uninterrupted patient care
- Prepare and execute deployment and regression testing across environments; document, investigate, and validate software defects identified in the field or internally
- Lead of the current EU Cloud migration initiative, overseeing testing in various environments, coordinating cross-functional teams, managing clinic communications, and driving execution across multiple migration waves
- Serve as Hypercare lead during active migrations, resolving live issues and managing team response to ensure timely resolutions
- Write and analyze SQL queries to support investigations, assess field impact and scope, and fulfill data requests across multiple teams
- Develop and deliver new hire training programs while acting as a key technical resource for various teams, providing guidance on troubleshooting, workflows, and cross-functional collaboration

Chorus Innovations

Long Beach, CA

Solutions Architect II, July 2022 – Nov 2023

- Designed and developed responsive web and mobile applications, translating client requirements into system designs, wireframes, and functional solutions
- Collaborated cross-functionally with QA, Product, and UI/UX teams while communicating technical concepts to non-technical stakeholders and managing client relationships
- Applied knowledge of HIPAA/IRB compliance, research methodologies, and biostatistics to support data-driven development and innovation

GameStar+

Remote

QA Contract Engineer, Dec 2021 – Nov 2023

- Conducted black box testing using systematic methodologies, leveraging browser developer tools for debugging and documenting defects in Jira

Wells Fargo Bank

Los Angeles, CA

Lead Operations Supervisor, Nov 2015 – Feb 2022

- Delivered excellent customer service across all interactions, resolving customer concerns and complaints efficiently
- Ensured accurate transaction processing while following procedures to minimize errors and reduce fraud risk
- Supported team workflow by assisting tellers and ensuring transactions were completed correctly
- Participated in and led team meetings to share ideas and improve overall customer experience

EDUCATION

California State University, Northridge
